Michael,

DMA shared the following from her 10:30 call:

- DM call at 10:30 focused on the availability and sharing of information enabling the GoC to prohibit individuals from entry into Canada, and ability to provide/share such information with the US to do the same (for entry into the US).
- Conclusion was that the best database in which to input information is CPIC (which can be shared with/seen by US). Criminal charge/conviction information can go into CPIC; discussion was around engaging provincial and local law enforcement to ensure charges are entered quickly into CPIC. Key will also be to communicate publicly that this is happening and what the consequences might be for ability to cross the border (to create disincentives).
- IRCC also briefed on authorities their department/Minister has to prohibit entry into the Canada. Frequently used provisions are existing prohibitions for entry of unvaccinated foreign nationals, and inadmissibility provisions. IRCC Minister also has ability to prohibit entry to someone who would otherwise be eligible; this needs to be on an individual basis, and cannot be delegated by the Minister.

Thanks. We just got a message from PCO saying – “Your bosses received an invitation from the Deputy Clerk to discuss s.38 regarding the blockades. The purpose is really to take stock of what is known s.38

Grateful if you could share any info you might have on s.38 along with the two attachments.

Antonia

Hi Michael – I believe Nancy has just gone into a secure room. Do you happen to have the two documents referred to as attachments that you could send our way?

Thanks,

Antonia

Sebastien – Given the tightest of time, please provide the readout of TC Min's call and Martin Loken's meeting.

Nancy – those two docs capture the latest. We have no proactive points to make other than the observation that there is growing concern from US as per the bullets from yesterday.
